## SKILLS

---

### Front end development

HTML | CSS | JS | React | Redux | Github | Firebase | SCSS | Tailwind | Easypeasy

## PROJECTS

---

### Goldenursh

*Technologies: React | easypeasy | SCSS | Firebase*

**Demo** 🔗 | **Github** 🔗

An e-commerce platform for ordering and purchasing food delicacies.

- Collaborated with a web designer to conceptualize and execute this project.
- Designed and developed a fully responsive online ecommerce restaurant platform using React.js for the front end and Firebase for the backend.
- Integrated Flutterwave payment gateway to facilitate seamless online transactions, ensuring a smooth and secure payment experience for users.
- Implemented a live chat feature, enabling customers to communicate with administrators directly within the platform, enhancing user engagement and support.
- Created an intuitive admin dashboard to streamline site management tasks and efficiently manage staff lists, improving overall site administration.

### Space Tourism

*Technologies: React | SCSS*

**Demo** 🔗 | **Github** 🔗

- Developed a fully responsive website dedicated to space exploration utilizing React for the frontend architecture and SCSS for styling.

## EDUCATION

---

### Mechanical Engineering

*Federal University of Agriculture, Abeokuta (FUNAAB)* 🔗

- CGPA: 4.0/5.0

2023

Ogun State

## EXPERIENCE

---

### Engineering Intern

*Domitech Engineering Services Limited* 🔗

04/2022 – 10/2022

- Supported pipeline fabrication and installation processes for generator sets, ensuring optimal fluid flow within the system.
- Assisted in the Structural Steel Erection and Installation, contributing to the seamless assembly of vital structures.
